Principals play an important role in the future of our nation. Not only do they have the responsibility of cultivating our youth – our future; but as leaders, they have the daunting task of motivating their colleagues and charting a course for the next frontier in education.

The Academy of Principals provides a forum for senior educators to engage in professional exchanges and discussions, and to learn from and share best practices and methods.There is a strong collegiate spirit of mutual support within this fraternity where a semi-structured mentorship scheme, formed in collaboration with the Ministry of Education, is extended to all newly appointed principals. They will be able to tap into a vast reservoir of shared knowledge, experience and leadership that will serve to help them achieve professional excellence.
