We will contact you to offer you a place if a seat becomes available for the workshop. Please email us at admin@aps.sg if you require more information. Thank you.

Workshop Synopsis

It is critical for leaders to be purposeful, authentic and impactful in their communications. Especially in today's environment, the need to build trust, convey complex information and establish a connection with varied stakeholders becomes even more important. This 2-day programme will equip participants with a repertoire of communication strategies to speak with clarity and impact across a range of demanding situations. Integrating whole brain strategies and strategic thinking, participants will learn how to:

- Use the best communication strategy for any situation
- Present complex information clearly, concisely and memorably
- Communicate effectively in hostile and emotional situations

The workshop will be filled with interactive-learning, active-practising and role-playing, enabling immediate application and transfer of learning.

Who Should Attend?
