Venue: Sands Expo and Convention Centre, Singapore

Expanding the Possibilities!

Theme: Connect, Collaborate, Differentiate

Why Attend?

Discover the difference with innovative strategies, inspiration, networking and excitement you are looking for to transform your classroom and school!

- **Develop a mindset for change**
- **Learn from famed, international presenters**
- **Engage and motivate critical and creative thinking**
- **Add to your instructional tool kit practical ideas that get results**
- **Creating connections – building bridges...together!**

Differentiation is a philosophy that enables teachers to plan strategically in order to reach the needs of the diverse learners that we find in our classrooms today. We welcome the teachers and school leaders who form the cornerstone of our educational system and are gathered at the Summit today. Our quest in schools and classrooms everywhere is to foster success for students in their lives through becoming self-directed, productive problem-solvers and critical and creative thinkers. These are the 21st Century skills that will propel our schools forward.

As you will see demonstrated in this summit, differentiation is not just a set of tools but also a philosophy of instruction that a teacher embraces to reach the unique needs of every learner. A differentiated classroom is one in which the teacher responds to those unique needs (Tomlinson, 2013).

This Summit organized by the Academy of Principals (Singapore) presents leading international authorities who will provide a variety of options to successfully reach targeted

standards. Today, teachers face a challenging landscape of confounding variables that influence the constantly changing classroom.

AS a result of participating in this D.I. Asia Summit, you will explore the elements needed in the classroom to engage students and facilitate learning to increase the chances that ALL learners will succeed.
